Monster Undertakings

Its a far cry from the old wood burning locomotive that puffed and snorted under the load of a dozen small wooden cars to trains 135 feet long, weighing 500,000 pounds, hauling a train of steel cars a mile long at a speed of fifteen miles an hour. This evolution in transportation has taken place in less than a generation lican nomination next year.- ploded from shore at will at the and the end is not yet.

The Santa Fe railroad has just put into commission a monster locomotive which on its initial trip hauled a train of 100 loaded cars at an average speed of fourteen and one half miles an hour. This train was just a few feet short of one mile in length and its total weight was 8,560,000 pounds grasped by the mind, the load was equivalent in weight to more than 53,500 people.

Taxes and Asylums

was urged at the time of reduction, that such an abnormal rate row latter on.

Pierce Oil Company was forced the house. to Cough up that enormous fine, it | Another wonder of the wireless City." fit more people to reduce the tax rate and that was done. Now that money is gone, the tax rate has to be raised again to meet the current expenses and the asylums are in just as poor condition as before and more inadequate to meet the demands.

There was enough of the Waters Pierce money to have made the asylums large enough to meet all requirements for many years. but this was not done and the unfortunates who seed treatment at the ins. t. i to must be held n county jails awaiting room for

It was a mistake deliberately made to pander to the public with an unreasonable reduction of the taxes and let the asylums remain the same, and now that the tax rate has to be raised it is easy for the people to see the foolishness of that measure ...
